

UPHOLLAND ROBY MILL PRIMARY SCHOOL NEWSLETTER

24TH APRIL 2026

This week's news...

This week at Roby Mill, our KS2 class have been working hard on their skills in Maths. Y6 have been working on shape and angles, Y5 have been using co-ordinates, Y4 have been working on money and our Y2/3 group have been learning how to tell the time.

In KS1, we have been thinking about the seasonal changes in Science and Reception have been using a non-fiction text to learn about transport.

On Monday, our KS2 class had a super Bug Busters session led by the school nursing team. The session was great and the nurses were really impressed by our existing knowledge.

Star of the Week

Bobbi
for her excellent handwriting.

House Point Winners

Green - Harriet, Iyla

Red - Ivy, Ava P

Blue - Nellie, Evie

A reminder that on Thursday 7th May, KS1 will be visiting Windmill Farm. we still have a considerable amount of forms outstanding. Can these please be returned by Monday.

On that day, our KS1 classroom and playground will be used as a polling station. We will therefore use the front entrance to enter and leave school and use the front playground for our breaks. Breakfast and after school clubs will run as normal.

Well done to George, Finn, Theo H and Theo J for being school swim stars this week.

Reception school places were allocated last week and we are pleased that we have some siblings and some new families joining us in September. Transition sessions will begin after the half term break.

This week's question...

Is it ever too late to start something new?

Upcoming Events
